

HMB Professional Engineers announces strategic add-on acquisition of Wiser Consultants

June 07, 2024

HMB Professional Engineers, a Kentucky-based engineering firm, is thrilled to announce the add-on acquisition of Wiser Consultants (Wiser). The acquisition more than triples HMB's presence in the rapidly growing Nashville metro area market and further strengthens HMB's roadway design and survey capabilities, including the addition of mobile LIDAR services. HMB brings additional engineering services to existing Wiser clients in Tennessee, including full-service environmental and water/wastewater design.

"It is said that opportunities don't just happen but are created. Bringing together two great firms like Wiser and HMB will create many new opportunities for all involved," said HMB President Rob Dowler. "New opportunities for our employees to grow professionally. New opportunities to provide additional services to our clients. And new opportunities to pursue bigger and more complex projects. I am truly excited to see what the future holds for this new, stronger HMB team!"

Wiser Consultants is a Tennessee-based premier roadway design, site development, CE&I, and surveying services provider. Wiser is a fully integrated planning, engineering, surveying, design, and CEI consulting firm serving a broad range of local and state government agencies. Wiser has 30 years of experience providing professional engineering services throughout the Tennessee Valley region.

"Wiser Consultants is thrilled to be joining the HMB/Trilon family," said Justin Rains, President and CEO of Wiser Consultants. "After spending time with HMB's leadership team, it became clear that our culture and values are very well aligned, making this transition nearly seamless. We are most excited about the depth of resources and new capabilities we can bring to our clients along with the amazing growth opportunities for our team."

"We are happy to announce that Wiser has officially joined forces with HMB, marking an exciting new chapter for both companies," said Wes Mattingly, Vice President and Head of Tennessee Operations at HMB. "This acquisition brings together two industry leaders whose cultures and services are a natural fit. As a united team, we are committed to delivering even greater value to our clients."

HMB is a part of the Trilon Group, a family of companies focused on growing infrastructure capabilities to better serve our clients through investments in talent, technology, and targeted mergers and acquisitions. The Trilon Group, which is backed by people-driven private equity firm Alpine Investors, seeks to build the next Top 10 design firm in North America by bringing together the nation's best infrastructure consulting firms and by investing in those firms to accelerate the growth and careers of their employees.
