## Lytle Water Solutions Joins Moore Engineering

Natick, MA (October 14, 2024) – Lytle Water Solutions is proud to announce it has joined Moore Engineering, Inc.

Lytle Water Solutions, LLC (“LWS”) is a water resource engineering firm specializing in surface water and ground water resources. The firm’s team of professional engineers, geologists, hydrologists, and hydrogeologists offer services to municipal and quasi-municipal water supply providers, landowners with water supply and/or water quality issues, land developers, and mining clients. These services include surface and groundwater hydrology and modeling, water rights, expert testimony, environmental permitting and monitoring, and surface and groundwater remediation.

In its announcement, Lytle Water Solutions stated “Moore Engineering offers an array of complementary services to our existing offerings, including additional surface water and environmental services. Our capabilities are also strengthened by Moore Engineering being part of a larger 100% employee-owned company providing critical strategic support through human resources, accounting, IT, marketing, and communications at a best-in-class level of expertise that will further amplify our service to our clients.”

Since 1960, Moore Engineering has been dedicated to improving lives by building strong communities. In the past 60 years, Moore Engineering has completed more than 22,000 civil and environmental engineering projects throughout North Dakota and Minnesota, advancing the region’s water, municipal, campus and transportation infrastructure.
